

## Regarding COVID-19

At this time, Embrace is making efforts to minimize exposure and reduce transmission of the Coronavirus (COVID-19) to our clients and staff. We are asking screening questions, prior to or at the time of their appointments to identify those who are at risk of COVID-19. We appreciate your cooperation and patience during this process.

**It is important to stay home if you are sick to prevent spreading the virus.** Please help us protect our vulnerable population by answering these questions before coming in for your appointment:

### Do you have any symptoms?

- Cough
- Fever (temperature above 99.5 degrees)
- Shortness of breath, or lower respiratory infection symptoms

### Have you had potential exposure?

- Have you, a family member, or co-worker traveled internationally (or been in close contact with someone who has traveled internationally) within the last 14 days?  
If yes, where? Have you traveled to/from or through: China, South Korea, Japan, Italy, or Iran?
- Have you had close contact with anyone who has or is suspected of having Covid-19?

**If you answer YES to any of the above questions, please call Embrace at (316)-945-9400 so we can assess risk and make appropriate referrals. *If our staff assesses you to be at risk, you will be asked to schedule your appointment to a future date for the safety of our staff and patients.***
